

Ford Motors: The Car Company that Changed the World

The Ford logo and some recent car models

Why it Matters

- Ford is one of the largest automobile producers in America and worldwide.
- Ford is one of the largest family-controlled companies in the world.
- Ford's production processes changed the automobile industry and other industries enormously, making them more productive and efficient.

Did you know?

The first Ford car was sold in 1903 for 850 dollars.
